

## Lorne O. Joseph II

With decades of experience in information systems, security and auditing, Lorne O Joseph II is a recognized expert in Enterprise Governance, Risk and Compliance (eGRC). Lorne possesses unique situational awareness and conflict resolution skills required to navigate the complex politics of Enterprise Risk Management.

In the role of Chief Risk Officer, for the National Minority Technology Council, Lorne is responsible for the risks associated with the 65,000 minority technology companies totaling \$100 Billion in combined revenue and the stakeholder agreements organized over a distributed intelligence platform. Lorne has refined the expertise necessary to bridge the gap between organizational needs and security enablers in today's evolving threatscape.
