

Dr. Carlos Mellado, apart of being a dedicated health practitioner for the last 17 years has also been committed to the development of the health field in Puerto Rico. Throughout his career he has proactively worked to represent the medical class as well as to defend the well being of patients in the island. He is vastly experienced in the administration of public health services.

He was an advisor of the Health Commission to the Senate of Puerto Rico and during 2012 to 2015 years served as Puerto Rico's Health and Patients Advocate.

Dr. Mellado is also known for his humanitarian work in Haiti and Puerto Rico.

He was President of the Faculty of Medicine and Medical Director of the Caribbean Medical Center in Fajardo. He also served as Director and Member of the Board of Directors of the medicare advantage health plan Red Médica of Puerto Rico.
